**Plastic is produced from our limited non-renewable oil reserves and takes centuries to biodegrade.**

- **Minimise your use of products made from or packaged in plastic.**
- **Many soaps, shower gels, and facial scrubs contain microbeads (tiny plastic balls) which enter our waterways, are eaten by fish, and end up in food we eat. Check what your favourite products are made from!**
- **Cut open the plastic rings from six-packs of drinks. Birds, mammals, and other wildlife become trapped and suffer agonising deaths.**
- **Dispose of your facemask carefully: ear-loops can be deadly for fish, birds, and wildlife**
